FUND MANAGER COMMENTARY AT 31 AUG 2020

The rand and bonds are slightly stronger for the month and portfolio returns are a little higher than expected. Overall, this is a good outcome for August. What started as the great COVID-19 induced lockdown in March 2020 has become the great unlock as we enter spring. We continue to see improving signs of a recovery taking hold. We also saw signs of rising inflation with the most recent CPI print (for July) of 3.2%, seeming to indicate that the interest rate cutting cycle has come to an end. The South African Reserve Bank (SARB) has done its part for the local economy and the onus is now on government to roll out a meaningful recovery plan. We note that President Cyril Ramaphosa's stance on corruption and his assertiveness within the NEC at its end-August meeting are a small step in the right direction. We eagerly await corrupt politicians in orange overalls, growth-friendly policies and functional state-owned enterprises. Bonds continue to offer good value, with current yields providing investors with an attractive entry point to the asset class.

	Class A
Initial fees (BCI) (incl. VAT)	0%
Advisory Fee (Max) (incl VAT)	0%
Ongoing Advisory Fee (Max) (incl VAT)	1.15%
Annual Management Fee (incl VAT)	
Class A	1.15%
Performance Fee	None
TER and Transaction Cost (incl VAT)

Portfolio Transaction Cost	Jun 20: 0.01% (PY): 0.01%

A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. Transaction Costs are a necessary cost in administering the Fund and impacts Fund returns. The TIC should not be considered in isolation as returns may be impacted by many other factors over me including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The TER and Transaction cost calculations are based upon the portfolio's direct costs for the financial year ended 30 June 2020, whilst the underlying portfolios ratio and cost calculations are based upon their most recent published figures, being 30 June 2020.
