FUND MANAGER COMMENTARY AT 31 AUG 2020

The Anchor BCI Managed Fund was up 1.7% in August, pushing it further into positive territory for the year (+2.3% YTD), as it recovered from the COVID-19-related selloff earlier in 2020. The fund outperformed the peer group, which was up 1% for the month, and the fund is now 1.6% ahead of the peer group YTD. There was a small positive contribution from domestic bonds, mostly in the form of yields, and also from our domestic equity exposure, including decent contributions from Discovery and MTN, as well as the diversified and platinum miners. However, the bulk of the fund's August performance came from the offshore equity component. Despite the rand strengthening by 0.8% against the US dollar for the month, the offshore equity component was up 8% in rand terms, with particularly strong contributions from Facebook, Alibaba, Synchro and ICICI. Domestic property was the only asset class which was a drag on performance in August (down ~10% MoM), as the sector remains heavily exposed to retail property, which is still in the eye of the COVID-19 storm.
