RISK PROFILE: HIGH

- This portfolio has a higher exposure to equity markets than any other risk-profiled portfolio and therefore tends to carry higher volatility.
- Expected potential long-term returns are high, but the risk of potential capital losses is high as well, especially over shorter periods.
- Where the asset allocation contained in this MDD reflects offshore exposure, the portfolio is exposed to currency risks.
- This is therefore suitable for long-term investment horizons.

FUND MANAGER COMMENTARY AT 31 MAY 2025

The Anchor BCI SA Equity Fund increased by 5.1% in May, outperforming the FTSE/JSE Capped SWIX Index, which gained 3.0%. Gold counters were a minor detractor from May’s index performance as the gold price paused after a two-year, 70% rally. Naspers and Prosus performed well (+6% MoM) following a de-escalation in China/US trade policy, and a solid earnings announcement from Tencent. Two potential suitors have expressed an interest in MAS Plc (+7% MoM), which we believe is trading at a discount to fair value due to past governance concerns. On the small-cap front, Renegeren increased 65% MoM, following an all-share offer by NASDAQ-listed ASP Isotopes. Lewis (+22% MoM) and Tiger Brands (+19% MoM) also outperformed, with Lewis continuing its earnings growth and Tiger Brands’ turnaround strategy starting to pay off. Nutun (previously Transaction Capital; -24% MoM) was the worst performer in May, reporting a core loss for the period. We added to the portfolio’s Boxer (-5% MoM) allocation following its maiden set of results, which offered an attractive opportunity to increase our weighting, in what we consider a quality compounder. We also added to our Afrimat (-2% MoM) position, backing management’s ability to derive economic returns from previously distressed assets. Lastly, we exited our positions in Sasol and Grindrod, reallocating capital to higher-conviction ideas with stronger medium-term visibility such as Vodacom. We remain cognisant of the fluid global environment and are committed to managing its impact on our fund.
